EXAMINER'S AMENDMENT

Election/Restrictions

Claims 9-40 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected inventions and species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 5/30/06. The applicant stated that the claims 35-38 are a part of the elected invention, however the examiner disagrees because the applicant has chosen species A, which is only claims 1-8, therefore the examiner has withdrawn claims 35-38.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Marisa J. Kaplan on 7/19/06.

The application has been amended as follows:

Claims 9-40 are cancelled.

Claims 1-8 are allowed. The sub-species of species A, pertaining to claim 6 have been rejoined because they depend from an allowable base claim.

The following is an examiner's statement of reasons for allowance: the prior art of record all failed to show either alone and/or in combination an interior cabin configuration determination system with a plurality of service units and monuments with card readers. Also controllers coupled to the card readers determining position information from the card readers and a controller remotely located to determine a configuration of the objects. The following discloses an aircraft seat with indicator on it.
